\* Preferential Access Through Aspiriant

Returns are stated net of manager's fees, but before Aspiriant fees. All fund returns above are stated including the reinvestment of dividends and capital gains. Figures in bold reflect performance equal to or better than benchmark fund or, in cases where the benchmark fund's performance is not available, performance equal to or better than benchmark index.

The indices and benchmark funds included herein have been selected to allow for comparison of an individual investor's performance to that of certain well known and widely recognized indices and funds. The inclusion of an index or benchmark fund should not be considered a representation by Aspiriant that it is an appropriate benchmark, in all client circumstances, for specific securities, or against overall portfolio performance, nor is it a guarantee of individual investor performance that is greater than the benchmark. The performance and volatility of an individual investor's portfolio may be materially different from those of the indices and benchmark funds. Further, an individual investor's holdings may differ significantly from the securities that comprise the indices and benchmark funds. An investor cannot invest directly in any of the above indices, but could potentially invest in the benchmark funds. In preparing this presentation, we have relied upon and assumed, without independent verification, the accuracy and completeness of all information (including performance statistics) available from public sources. This document is provided solely for informational purposes and is not intended to be an offer or solicitation, or the basis for any contract to purchase or sell any security or other instrument, or for Aspiriant to enter into or arrange any type of transaction as a consequence of any information contained herein.
